Location - TamilNadu

PROFESSIONAL SUMMARY

Dynamic AI/ML Engineer with a strong foundation in machine learning, data analysis, and cloud computing. Skilled in Python, SQL, and frameworks like LangChain and PyTorch, with hands-on experience building and deploying AI solutions. Proven ability to tackle complex challenges through innovative projects and internships, complemented by a passion for leveraging AI to deliver scalable, impactful solutions. Adept at collaboration and problem-solving, eager to contribute my work in this competitive world.

EDUCATION

Dhirajlal Gandhi College of Technology

Bachelor of Technology
Artificial Intelligence and Data Science
Honours in Full-Stack development for IT

Salem,Tamlinadu
2021- 2025

SKV VIDHYAASHRAM SENIOR SECONDARY SCHOOL (AISSCE)

Namakkal,Tamlinadu
2019-2021

V SENIOR SECONDARY SCHOOL (AISSE)

Namakkal,Tamlinadu
2018-2019

WORK EXPERIENCE

Workcohol

Artificial Intelligence Intern

Virtual
Jan 2025 - Present

- Designed and deployed Large Language Model (LLM) applications using LangChain, integrating APIs and Streamlit for real-time functionality.
- Engineered a LangChain-powered chatbot on custom datasets, enhancing user engagement and data processing efficiency by 20%.

SURE Trust

Data Science Intern

Virtual
Jan 2024-Apr 2024

- Developed supervised and unsupervised ML models in Python, analyzing datasets with Scikit-learn and NumPy.
- Optimized SQL queries with analytical functions, improving data retrieval performance.
- Built an interactive Tableau dashboard for IPL data, driving actionable insights through visualization.

Edunet Foundation

Data Analysis Intern

Virtual
Nov 2023- Dec 2023

- Performed sentiment analysis using Python, NLTK, and Naive Bayes models, achieving high accuracy in classifying user reviews.
- Streamlined data preprocessing workflows, reducing processing time by 15%.

CloudPlusAi Technology

Cloud Computing Intern

Virtual
Sept 2023- Oct 2023

- Managed AWS infrastructure, configuring Compute (EC2), Storage (S3), and Database (RDS) services for scalable applications.
- Implemented security protocols and networking solutions, ensuring robust cloud performance.

PROJECTS [Link](#)

AI powered LinkedIn Summarizer

- Created a Flask-based web app using GPT-4 and LangChain to generate personalized networking insights from LinkedIn data.
- Deployed with web scraping tools (Tavily, Scrapin.io), optimizing for real-time performance.

AI powered Spam Classifier

- Designed and implemented an unsupervised methodology to classify a mail as spam or harm mail using support vector classifier algorithm
- Preprocessed the data with the help of NLTK.
- Transformed the data to achieve an accuracy of 97.8%

Restaurant Recommendation Prediction

- Preprocessed the data with the help of numpy and pandas
- used clustering algorithm to categorize the restaurants with better rating and recommend it to customers according to their food taste.

Certifications [Link](#)

Data analysis with python, Udemy

Artificial Intelligence Primer Certification Infosys

Google AI Essentials, Coursera

Microsoft 365 , Microsoft

Network Essentials, Cisco

Microsoft Power BI , Udemy

Fastest Line Follower, Technoxian

ACTIVITIES

- **Secretary, Department Association:** Led a technical symposium, coordinating innovative solutions and managing cross-functional teams.
- **Workshop Organizer:** Facilitated a Blockchain Technologies workshop, driving engagement in emerging tech trends.

SKILL SET

Technical Skills:

- Languages: Python, SQL, MATLAB
- AI/ML: Machine Learning, Deep Learning, LangChain, Scikit-learn, PyTorch, NLP
- Cloud: AWS (EC2, S3, RDS, VPC), Cloud Deployment
- Data Tools: Tableau, Power BI, Pandas, NumPy, Data Preprocessing
- Development: Git, Flask, Streamlit, APIs

Soft Skills: Collaboration ,Problem solving, Continuous Learning , Analytical Thinking , Adaptability

Languages: Fluent in English , Tamil ; Conversational proficiency in Hindi

Areas of Interest: Internet of Things , Game designing

Hobbies: Playing music , Gym , Chess , Cricket
